

Future-proof plant planning & erection

CONSTRUCTION PROJECT MANAGEMENT

Industrial and commercial construction planning

We plan and build customized building solutions for the process industry and commerce.

Our specialists plan and build HOAI-compliant industrial and commercial buildings, including infrastructure, while taking care of all tasks from feasibility reviews to commissioning. We also give you the option to handle the project as the general contractor based on an open-book model.

Our services:

- Laboratory building planning documentation
- Production building planning documentation
- Administrative building planning documentation
- Workshop planning documentation
- Pipe bridge planning documentation
- Warehouse planning documentation
- Planning documentation for cargo transfer points, including for rail zones
- Planning documentation for collection basins for (even combustible) water-hazardous substances pursuant to WHG.
- Planning documentation for infrastructure (sewers, water, roads, rail, cooling towers)
