

Sustainable growth at the chemical park GENDORF

SAFETY, HEALTH, AND ENVIRONMENTAL PROTECTION

Site fire department and emergency management

Your safety is close to our heart. Our site fire department has more than 50 professional firefighters with training specific to chemical operations and is available to assist you round the clock with the latest technology.

As a preventive strategy, the GENDORF site fire department prepares emergency plans and alarm notification and incident response planning documentation, in particular also for plants governed by the Emergency Incident Directive. Highly sensitive alarm systems such as fire and gas warning alarms and malfunction alarms are routed to a 24-hour dispatch center. The GENDORF fire department has highly sophisticated equipment and staff with the best possible incident response training to fight fires and to respond to incidents at the chemical park.

Our services:

- Help in the event of a fire or emergency
- Emergency management with dispatch center and incident response organization
- 24-hour dispatch center
- Emergency, alarm, and incident response planning
- Preventive measures (such as site inspections, training for conduct during a fire)
- Pan-European assistance for transportation and warehouse accidents involving chemicals (TUIS)
- Technical assistance
- Security officers
