

Sustainable growth at the chemical park GENDORF

LOGISTICS

Rail and container workshop

As the operator of a rail and container workshop, and in conjunction with the "Turntable" container logistics solution and the tanker truck and tanker railcar cleaning line, we offer a complete service package for your tanker containers or tanker railcars.

Our cost-effective and fast on-site repair capability gives you the benefit of high availability and lower transportation costs for rail-based equipment and tanker containers circulating in the ChemDelta Bavaria.

Our services:

- Maintenance and inspections of cargo and tanker railcars, shunting locomotives, and tanker containers
- ECM certification
- Chassis inspections G4.2 and G4.8
- Pressure and leak testing on HazMat tanker railcars
- Brake inspections Br0 and Br2
- Component exchanges such as wheel axles or bogies
- Upgrades and conversions
- Repairs on interior liners and insulation on tanker railcars and tanker containers
- Mobile service
- Tanker truck and tanker railcar cleaning
