DISPOSAL

Services for technical wastewater plants

Our experts make sure that a clean and safe infrastructure is available to dispose your industrial wastewater.

Our range of services include maintaining or creating a clean and safe infrastructure for disposing industrial wastewater. These in particular include cleaning, inspecting, overhauling, and new construction of technical wastewater plants (canals, shafts, trenches, etc.).

Our services:

- Industrial below grade construction
- Clean, inspect, overhaul, and new construction of technical wastewater plants, in particular for chemical operations
- Oil separator, wastewater/settling basins
- Water protection
