

Sustainable growth at the chemical park GENDORF

DISPOSAL

Waste incineration

Our sophisticated waste incineration plant allows us to use your waste as an environmentally friendly and energy-saving resource.

The exhaust heat is used at the chemical park GENDORF to generate process steam and thus saves a substantial quantity of primary energy. The thermal processing plant consists of two lines: the fluid incinerator and the treatment sludge incinerator.

Our services:

- Treatment sludge incineration
- Incineration of liquid combustible waste
- Records maintained iaw. waste law
