

Efficient plant operations & maintenance

MAINTENANCE, INSPECTION, AND TESTING

Mechanical maintenance, inspection, testing

Our experts for mechanical maintenance, inspection, and testing take care of all tasks to ensure the safe and reliable operation of your mechanical equipment in accordance with the Occupational Safety Directive.

We help you comply with your obligations as the plant operator.

Our services:

- Conduct tests in accordance with Occupational Safety Directive
- Ongoing monitoring of statutory requirements and manufacturer specifications
- Deadline review and monitoring
- Prepare documentation in accordance with statutory requirements
- Inspect safety-relevant equipment, such as rigging gear, hoists, racks, fire safety doors
- Coordinate and monitor maintenance action plans for identified deficiencies
